Please allow one to two weeks for delivery.

Suggestion:

- Many facilities have **clear plastic bags** of 39 gallons and assorted other sizes on hand used for housekeeping. Most are bought in bulk which can represent a sizeable cost savings and may be available for your America Recycles Day activities.
- Turn clear plastic bags into aluminum can recycling bags by adding an aluminum cans only decal.
- When placing a plastic bag in a recycling bin, store several other bags in the bottom of the bin. This makes changing out the bags an easy one-step process.
- Stacked clear bags filled with aluminum cans make for excellent backdrops for media and photo shoots.
